Did you know? <i>We care about your breeding program.</i> All Woodbourn bulls offered to you on sale day:	The Woodbourn Difference – to Our Customers’ Advantage <i>What these services mean for you.</i>
1. Are from a herd with 100 years of breeding (sourced from Creekton Stud)	<ul style="list-style-type: none"> • Depth of genetics • Strength of type • Continuity of breeding
2. Are registered with the Angus Society	<ul style="list-style-type: none"> • Quality Assurance • Pedigree Guarantee • BreedPlan Figures
3. Are the result of a large investment in our breeding program.	<ul style="list-style-type: none"> • Outcross – new genetics • Sourcing the best genetics available in Australia • Huge gains in genetic trends
4. Are increasing their average weight each year on a grass and hay regime.	<ul style="list-style-type: none"> • Doing ability assured – with increased carcase fat and EMA displayed visually and in EBV’s
5. Are paddock reared	<ul style="list-style-type: none"> • Predisposition to maintain and hold condition • Built in doing ability and durability
6. Are fully guaranteed.	<ul style="list-style-type: none"> • If it’s our problem, we fix it. We offer either a replacement or a credit at next sale (see sale notes page 4)
7. Are vet checked for soundness and breeding capabilities.	<ul style="list-style-type: none"> • Assured healthy and ready for use • Longevity • High conception rates
8. Are all tagged and weighed at birth, and scanned for EMA, IMF, RIB and Rump Fat	<ul style="list-style-type: none"> • Physical measurements ensure the accuracy of information. • To help you breed cattle to meet specifications • Assist your selection criteria
9. Are regularly blood tested as part of the Johnes Disease program and are MN3 status.	<ul style="list-style-type: none"> • Trust that you are buying from an accredited Market Assurance Program • Woodburn MAP Status: MN3 – TB6/99/02
10. AM & NH and CA status will be stated in the catalogue or on a supplementary sheet.	<ul style="list-style-type: none"> • Confidence in your breeding program.
11. Receive freight assistance	<p>Free Delivery – we take the worry and expense out of your delivery arrangements</p> <ul style="list-style-type: none"> • Mainland Tasmania – Free freight – probably by the vendor personally • Bass Strait Islands – Free Sea freight • *Mainland Australia – Free freight to Melbourne, Hamilton, Albury and Dubbo. Destinations further north or west, please discuss with vendor within seven days. • (* Minimum value \$3000)
12. May be purchased with deferred terms.	<ul style="list-style-type: none"> • Assist with planning and cash flow • 50% on fall of hammer and 50% deferred • Interest Free <p>Available to approved buyers on request, for up to six months</p>
13. Are part of the Woodbourn health assurance – The Pfizer Star program	<ul style="list-style-type: none"> • Herd Health protects your herd from infection • All bulls are under the Pfizer Star Program guarantee (see page 5) • All bulls have been vaccinated 7:1. • BVDV – all bulls qualify under Pfizer Star guarantee.
14. In some special cases, bulls may be held over until 1/9/12 at purchasers risk	<ul style="list-style-type: none"> • Contact the vendor prior to sale

Woodbourn Angus

Welcome

Another year has passed, and the breeding program is moving on in leaps and bounds. As you can see on the EBV table (page 8), the figures are strong, with birth weights, in the vast majority, breed average or well below, and the carcass figures displaying positive fats, and many EMA's in the top 1% and 5% for the breed. How you respond to these figures is a personal choice, to be combined with the outstanding shape and structural correctness of the offering.

We at Woodbourn are very mindful of maintaining different bloodlines for our clients and each year we carefully select new sires with that in mind. New acquisitions (Texas Dynamite E139 and Koojan Hills Unlimited F171) ensure that the future for us and purchasers of our Woodbourn bulls remains very optimistic.

The following copy of the press release written by the Weekly Times, I feel, states our position at Woodbourn very well. My apologies to those who have already read this article.

Happy reading and Janet, Lauchie and Sarah and I look forward to seeing you on sale day Tuesday, 17th of April at 10.45 start time.

Charles Wallace

Woodbourn Sale Notes

GUARANTEE

In the unlikely event of a bull proving to be infertile or incapable of natural service, the vendor will offer to supply a suitable replacement, as quickly as possible, if available, or credit the purchase price to be used at the next sale on one animal, less the salvage value of the bull. This is on the provision that the problem is not caused by injury or disease contracted since delivery. The guarantee covers the purchase price of the bull, less salvage, without interest, costs or damages. This guarantee is for a period of 18 months. Any claim must be accompanied by a relevant veterinary certificate. Insurance is your responsibility. **Remember: "If it's our problem, we fix it."**

VETERINARY EXAMINATION by Dr Paul Nilon, BVSc, MVS, MACVSc.

All the bulls have passed a thorough fertility examination. This examination included an assessment of structural soundness, especially feet, palpation of the reproductive organs. The penis has been extruded and inspected for warts and abnormalities.

HEALTH

Herd Health protects your herd from infection

- All bulls are under the Pfizer Star Program guarantee (see page 5)
- All bulls have been vaccinated 7:1.

BVDV – all bulls qualify under Pfizer Star guarantee.

JOHNE'S DISEASE

Woodburn MAP Status: MN3 – TB6/99/02

REFRESHMENTS

Complimentary morning tea is available prior to the sale.

INSPECTION

Bulls are available for inspection at any time prior to the sale, please ring. Viewing on Sunday 15th April 2012 from 1pm until 4pm.

SUPPLEMENTARY SHEETS On sale day the supplementary sheet will detail weights and pen numbers.

IDENTIFICATION

All sale bulls show the Lot number on their tag and have been freeze branded. All bulls will have N.L.I.S. tags.

GROUP BREEDPLAN

Group Breedplan figures are available in this catalogue.

INSURANCE

Please insure your animals, as they are your responsibility at the conclusion of the sale. We recommend Roberts Insurance.

DELIVERY

Trucking and shipping details will be organised for you by the vendor or his agent. All bulls may be held at Woodbourn for a reasonable time while transport is arranged.

FREIGHT

Free Delivery – we take the worry and expense out of your delivery arrangements

- Mainland Tasmania – Free freight – probably by the vendor personally
- Bass Strait Islands – Free Sea freight
- *Mainland Australia - Free freight to Melbourne, Hamilton, Albury and Dubbo. Destinations further north or west, please discuss with vendor within seven days.
- (* *Minimum value \$3000*)

GST

Cattle will be sold GST exclusive.

PIC

Registered tail tag number MBLF0124. National Vendor Declaration at the back of catalogue

TRAVEL

Virgin Blue (136789), Jetstar (131538) and Qantas (131313) fly regularly to Launceston airport which is 20 minutes from Woodbourn.

**20 minutes from
Launceston Airport to Woodbourn**

5 minutes from Cressy to Woodbourn

Woodbourn leads in assurance against reproductive disease !

Woodbourn aims to maximise the reproductive integrity and health of their stud stock by adopting the Pfizer STAR program – this is **Steps Taken Against Reproductive** disease.

Each Pfizer STAR certified animal bull in this catalogue has been

- ❖ Tested to show that they are not Bovine Viral Diarrhoea Virus (BVDV) Persistently Infected (PI) animals
- ❖ Vaccinated against BVDV to ensure they are protected to the effects of this infection
- ❖ Vaccinated against Leptospirosis, a potential reproductive and OH&S risk for cattle handlers
- ❖ Vaccinated against Vibriosis, a sexually transmitted cattle disease
- ❖ Given 2 vaccinations to ensure they have immunity established prior to leaving these premises
- ❖ Issued with a Pfizer STAR certificate – valid for 12 months

You can be confident that every step has been taken by Woodbourn to ensure that these animals presented for sale will not introduce preventable reproductive diseases into your herd.

Thriving stud reaps reward

TASMANIAN stud producers Charles and Janet Wallace are the first to admit they do not mind a challenge.

First there are the competing demands of operating two beef studs — Murray Greys and Angus.

Then throw in the fact they almost exclusively use bulls in their stud — and not artificial insemination — and the deal gets a lot more complicated.

But the decision by the Wallaces to use only limited amounts of imported semen and instead rely on high-quality Australian bulls is starting to pay off, especially in their Angus herd.

More and more people are turning to the Woodbourn Angus stud.

They are attracted by the fact their genetics can offer an outcross to the small number of widely used international Angus sires, found in what Charles thinks is an alarmingly high number of stud pedigrees.

The Wallaces run their Murray Grey and Angus studs at Cressy, in Tasmania — the Murray Grey stud was founded in 1969 by Charles.

He was attracted to the breed by its ability to consistently produce the type of calf the market wanted — an animal which had excellent muscling, moderate frame, and quiet disposition.

Charles is the first to admit he is a Murray Grey diehard, and is adamant their strong carcass traits, alongside their quiet temperament, make them the ideal choice for Australia's breeders.

But he's a realist too.

When Tasmania's only major Japanese-owned feedlot stipulated it was going to take only Angus cattle, and there was the opportunity to buy Angus cows from a major herd dispersal in the state, the stars aligned.

So in 1990, the Woodbourn Angus stud was established.

And despite being relatively new to the Angus scene, Woodbourn is achieving averages close to or above the more established studs in the breed in Tasmania.

While there are huge challenges and sometimes different ones when aiming to produce the best of both of the breeds using bought-in sires, Charles said there were two factors he always stuck to.

The first was to inspect personally each new sire joining the herd.

Last year, Woodbourn spent \$30,000 on a new Angus sire, Texas Dynamite E139.

"When commercial breeders are paying \$8000-\$12,000 for a bull to use in your herd, you have to lift your sights a bit," Charles said.

Vital genetics: Murray Grey (main picture) and Black Angus cattle (inset) make up the Woodbourn Angus stud.

"But when you get an animal like this, which looks like a bull, and has figures to match, then it's the price you have to pay."

He keeps his focus, and encourages his clients to focus on structural characteristics first, and then breedplan figures.

That is despite both studs having extensive Breedplan figures for all the bulls they offer.

"Soundness of body is the key aspect when buying a bull, and I

expect buyers to do it (look at the bulls personally), like I expect to do it when I look at a bull," Charles said.

"Once you have the phenotype right, then you can look at the breedplan figures and make up your mind."

The physical characteristics of a bull go beyond soundness, though, and Charles said different styles of bulls suited different styles of herds.

"We don't breed extreme bulls here, but we do breed different styles of bulls, for the different herds," he said.

"Some things we are offering cannot be measured or assessed, but people know what they like and need."

The second factor Charles insisted on was to not follow trends blindly or take his studs in extreme directions.

He quoted the tendency of the

Angus move frame figure herds "V whell Angu 5½ to or thr "The chanc the de

ards with local flavour

"The Weekly Times,
February 1, 2012
by Fiona Myers

which is the brainchild of stud producer Charles Wallace (far right).

Picture: PHILLIP BIGGS

s breed in the past 15 years to
towards a very large body-
and high 600-day growth
es, which have led to some
becoming inefficient.
Ve like to breed a bull,
er it be Murray Grey or
s, that is about a frame score
6½, that can do a job for two
ee markets," Charles said.
n the producer has the
e of being able to supply
omestic market, the

feedlot market or take it on to a
bullock weight."

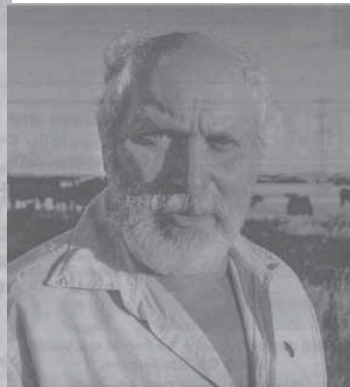

Despite being in Tasmania, the
Woodbourn Angus and Murray
Grey studs have a strong client
base across Australia, especially
for Murray Grey bulls.

"Bass Strait does probably put
some buyers off, but it shouldn't
and we have mainland clients who
often get home from the sale after
their bulls have been delivered,"
Charles said.

"We buy bulls in ourselves and
they come on the ship, and they
arrive looking like they just came
out of the paddock.

"The trip on the ship is just not
an issue."

Woodbourn even partly
compensates for the cost of
delivery of their bulls to all states
of Australia, to make it even more
attractive for buyers to make the
effort to come to their Tasmanian-
based studs.

Woodbourn will hold its Angus
sale on April 17, and its Murray
Grey sale on May 7, so there is a
busy few weeks ahead preparing
for the two fixtures.

But this cattle industry stalwart
is as enthusiastic about the future
of the industry as ever, and as
excited about his new bull as if it
was his first purchase.

He is also pleased the stud has
been able to launch its website,
woodbournstud.com.au, which

Charles said had to be easy to get
around and for people to find
information.

"People don't have the time —
they want the information and we
thought we could offer something
additional to our clients by the
website," he said.

"But we still like people to
come here and see our cattle.

"You have to be able to
physically inspect an animal to know
if it is going to be right for you."

Incitec Pivot Fertilisers proudly supporting the 2012 Woodbourn Bull Sales

Bull Receival

The purchase of a new sire is a big investment and it is important that all due care is taken to settle the bull in and to keep him healthy, sound and doing the right job for you.

The following points are suggestions on how to achieve this goal:

- ✓ **When your bull arrives, have another animal in the yards to welcome him and keep him company. This is the most important thing of all these points.**
- ✓ Get him out of the yards as soon as possible, as he will probably be tired and footsore from the trip and he will want to lie down under a tree for a spell with his new mate.
- ✓ Do not leave the bull in the yards for a long period, as this will upset him and could change his attitude.
- ✓ Put him in a nice paddock with good grass, clean water and good drainage. Not in a boggy paddock.
- ✓ Introduce him to other bulls gradually, one at a time.
- ✓ Do not just throw your new bull in with a big group of bulls and hope for the best.
- ✓ Do not leave your bulls in the paddock where they become the 'forgotten animals'.
- ✓ Drench the bull whenever you have him in your yards.
- ✓ When joining cows:
 - Observe the bull closely, check him often
 - Rotate your bulls between mobs
 - Write down joining dates of each bull as a reference

Remember this is an investment and it is important to take good care.

WANT PROFESSIONAL INDEPENDENT AND COST EFFECTIVE ACCOUNTING SERVICES?

CAMERONS is the largest locally owned accounting practice in Tasmania. As one of the largest regional accountancy practices in Australia, Camerons is a leading provider of tax, audit and advisory services.

With our expertise and emphasis to deliver innovative and cost-effective services, Camerons is a company that focuses on client success. We at Camerons are proud of our established reputation achieved through objectivity, integrity and independence.

Our focus and ability to deliver impeccable services to our clients has enabled Camerons to advise clients from diverse backgrounds, including small family businesses to large companies within Tasmania and nationally. We value and appreciate each client and their individual circumstances.

CAMERONS

NATIONAL VENDOR DECLARATION (CATTLE) AND WAYBILL C0410 10928866

This form cannot be used where eligibility for the EU market is required.

Part A To be completed by the owner or person who is responsible for the husbandry of the cattle.

Owner of cattle WALLABADAH P/L
 Property/place where the journey commenced WOODBURN 391
SAUNDRIIDGE Rd, CRESSY
 Property Identification Code (PIC) of this property MBLF0124
 Description of cattle

Number	Description (BREED, SEX, E.G. HEREFORD CROSS STEERS)	Brands or Earmarks (if present or required)
40	ANGUS BULLS.	

 Consigned to ROBERTS LTD EVANDALE ROAD
WESTERN JUNCTION, TAS.
 Destination (if different) of cattle
 NLIS devices used on these cattle Number of ear tags 40 Number of rumen devices
 Details of other statutory documents relating to this movement e.g. animal health certificate
 DOCUMENT TYPE NUMBER OFFICE OF ISSUE EXPIRY DATE
 1 Have any of the cattle in this consignment ever in their lives been treated with a hormonal growth propellant (HGP)? (Use a second document for mixed consignments.)
 Yes ☐ No ☒ +
 2 Have the cattle in this consignment ever in their lives been fed feed containing animal fats?
 Yes ☐ No ☒ (See Explanatory Notes)
 3 Has the owner stated above owned these cattle since their birth?
 Yes ☒ No ☐ If No, how long ago were the cattle obtained or purchased?
 (If purchased at different times, tick the box corresponding to the time of the most recent purchase.)
 A. Less than 2 months ☐ B. 2-6 months ☐ C. 6-12 months ☐ D. more than 12 months ☐
 4 In the past 60 days, have any of these cattle been fed by-product stockfeeds?
 Yes ☐ No ☒ If Yes, attach a list of the by-product stockfeeds, date when last fed and a copy of an analyst's report if available.
 5 In the past 6 months have any of these animals been on a property listed on the ERP database or placed under any restrictions because of chemical residues?
 Yes ☐ No ☒ If Yes, give details:

6 Are any of the cattle in this consignment still within a Withholding Period (WHP) or Export Slaughter Interval (ESI) following treatment with any veterinary drug or chemical?
 Yes ☐ No ☒ If Yes, give details: (Record additional details in question 9)
 CHEMICAL PRODUCT / TREATMENT DATE /20 WHP ESI (if any)
7 In the past 60 days, have any of the cattle in this consignment consumed any material that was still within a withholding period when harvested, collected or first grazed?
 Yes ☐ No ☒ If Yes, give details:
 CHEMICAL PRODUCT / DATE APPLIED /20 GRAZING WHP /20 DATE FIRST FED/GRAZED /20 DATE FEEDING/GRAZING CEASED /20
8 In the past 42 days, were any of these cattle:
 a) grazed in a spray risk area; or
 b) fed fodders cut from a spray drift risk area? (See Explanatory Notes for definition of spray drift risk area.)
 Yes ☐ No ☒ If Yes Date sprayed: /20
9 Additional information: see requirements in Explanatory Notes for completing this document.

SIGNATURE: DATE 17th April 2012

BVDV *it only takes one*

It only takes one persistently infected (PI) animal in direct contact with an uninfected herd to be a major biosecurity risk.

BVDV causes:

- Reproductive losses
- Productivity losses
- Losses from other disease complications, such as bovine respiratory disease

LIVESTOCK AUCTION TERMS AND CONDITIONS OF SALE

CHAPTER ONE - PRELIMINARY

- (a) A vendor is bound by these terms and conditions by offering livestock for sale.
- (b) An agent (which includes an auctioneer) is bound by these terms and conditions by conducting a sale.
- (c) A buyer is bound by these terms and conditions by bidding at auction.
- (d) In these terms the expression auctioneer, agent, buyer and vendor respectively includes the servants, contractors, agents of them. The auctioneer, agent, buyer and vendor shall be wholly responsible for the acts and omissions of their respective servants, contractors and agents. The term "auctioneer" includes, so far as the Act and context permits, the vendor's stock and station agent.
- (e) When used in these terms the expressions "companion animals" means all animals originating from a property on a particular day. Where lots are split and sent to multiple establishments, then all of these animals shall be regarded as companions.
- (f) These terms and conditions are subject to legislation or regulation in the State in which the auction is conducted and in the event of any conflict then the legislation or regulation will prevail. The provisions of these terms and conditions are in addition to, and do not derogate from, the duties and rights of vendors, agents and buyers set out in legislation and regulation in the State in which the auction is conducted.

CHAPTER TWO - STANDARD TERMS OF SALE

- (a) Subject to any reserve price, and to the right, prior to the fall of the hammer, of the vendor to withdraw any lot without declaring the reserve, the highest bidder shall be the buyer.
- (b) The auctioneer has the right to bid on behalf of the vendor provided that right is notified prior to the commencement of the sale and is subject to State law.
- (c) A bid cannot be made or accepted after the fall of the hammer.
- (d) The last price called by the auctioneer at the fall of the hammer shall be the amount at which the lot has been sold.
- (e) In the event of a disputed bid, the auctioneer is the sole arbitrator of the successful bidder or the auctioneer may decide to put the lot up again. The auctioneer's decision is final.
- (f) The auctioneer may refuse to accept any bid which, in the auctioneer's opinion, is not in the best interests of the vendor and need not give reasons for doing so. The minimum bid for liveweight selling is 0.2 of a cent (\$0.002).
- (g) A bidder shall be deemed to be a principal unless, prior to bidding, the bidder has given to the auctioneer a copy of written authority to bid for or on behalf of the auctioneer.
- (h) Successful bidders. The actual successful bidder at an auction sale must give to the auctioneer or an employee of the auctioneer at the fall of the hammer:
 - (i) The purchaser's name; or
 - (ii) The name of the person on whose behalf the successful bid was; and the
 - (iii) PIC of destination.
- (i) The auction shall be conducted on the basis that the bid price shall be exclusive of Goods and Services Tax (GST). GST shall be added after the fall of the hammer for those sales subject to GST.
- (j) As soon as practicable after the fall of the hammer, the buyer shall sign the agreement for sale (if any).
- (k) If a buyer does not comply with any of these terms and conditions, which includes the requirements of State law, any stock knocked down to that buyer may be re-sold by public auction or private contract in whatever lots and manner the auctioneer decides. The re-sale may be with or without notice and shall be at the buyer's risk. The buyer is responsible for all loss and expense arising out of a re-sale and is not entitled to any resulting profit.
- (l) The buyer of livestock must pay the agent the full amount of the purchase price on receipt of a tax invoice. Payment is required prior to delivery unless some other time for payment is specified in a written agreement between the buyer and the auctioneer that was made before the fall of the hammer.
- (m) No person may bid unless, prior to the commencement of the sale, that person has made arrangements satisfactory to the auctioneer for payment for stock purchased. If bids in breach of this condition are inadvertently accepted, delivery shall not be given until the purchase money is paid and any law, rule or practice to the contrary is accordingly negated as far as possible.
- (n) Cattle sold on a liveweight basis that are weighed pre-sale are at the risk and expense of the buyer upon the fall of the hammer.
- (o) Cattle sold on a liveweight basis that are weighed post-sale are at the risk and expense of the buyer immediately after weighing.
- (p) All stock other than cattle sold on a liveweight basis are at the risk and expense of the buyer upon the fall of the hammer.
- (q) Subject to this clause the sale is complete on the fall of the hammer.
- (r) The time for rejection is the time commencing at the fall of the hammer and ending at the first of:
 - (i) Delivery is taken by a representative of the buyer;
 - (ii) Departure of the animal from the purchaser's delivery pen; or
 - (iii) One hour after the last animal is:
 - In the case of pre-sale weighing, sold; or
 - In the case of post-sale weighing, weighed.
- (s) During the time for rejection the buyer may reject any animal which is lame, blind or diseased where that condition existed prior to the fall of the hammer but could not be reasonably observed when the animal was in the selling pen.
- (t) If the purchaser rejects an animal during the time for rejection then the sale of that animal is cancelled and the animal is returned to the vendor or sold at such price as the purchaser and the agent may agree.
- (u) This sub-clause applies to cattle which are sold in Queensland at auction for slaughter. The agent has responsibility for the prevention of loss or escape (but not death, sickness or injury) of those cattle from the time of the fall of the hammer, through delivery to and from the scales, to the buyer's delivery pen and on to the buyer's nominated transport. This responsibility ends at the earlier of those cattle boarding the buyer's nominated transport or sunset on the day after the sale. This sub-clause does not apply if the agent makes an announcement to that effect prior to sale.

- (a) Subject to the right of rejection in clause 18, all conditions and warranties expressed or implied by law are hereby excluded from the sale to the extent that the law allows. All lots are open for inspection prior to the commencement of the sale and any sold with all faults, if any. No compensation shall be given for any faults, imperfections, errors of description, number in or of any lots sold or otherwise.
- (b) Any claim or objection arising out of an error or misdescription in the provision of relevant information in terms of legislation or regulation concerning the National Livestock Identification Scheme (NLIS) must be made by 5:00pm on the seventh day after the fall of the hammer. No objection, requisition or claim against the vendor or agent in respect of such error or misdescription can be made after that time.
- (c) Any statements made by the vendor or the auctioneer whether in writing or orally to the effect that any female has been pregnancy tested or scanned positive shall mean and require only that a certificate in writing shall be supplied to the buyer signed by a qualified veterinary surgeon or certified scanner certifying that the said female has been tested or scanned on the date specified in the certificate and that in the opinion of the surgeon or scanner the female was pregnant on that date.
- (d) For cattle, the agent undertakes to make every reasonable effort to ensure that any NLIS cattle device number is transferred from the saleyard account to the purchaser's account on the NLIS database no later than midnight on the day of the sale.
- (e) Where livestock has a food safety or market eligibility status derived from the NVD and/or the NLIS/ERP database, the agent will inform the buyers by pre-sale catalogue in conjunction with vendor branding and/or announce the status prior to the offering of those lots.
- (f) If delivery is made to, or possession obtained by, the buyer or its representative before full payment of the purchase money, then until full payment is received, the buyer:
 - (i) Does not acquire title to the stock;
 - (ii) Holds the stock as bailee only for the vendor;
 - (iii) Must act in a fiduciary capacity in its relationship with the vendor;
 - (iv) Must store the stock separately or so that they are readily distinguishable from other stock owned by the buyer;
 - (v) Is responsible for the safety and well being of the stock;
 - (vi) May make a bona fide sale for market value of any or all of the stock. As between the buyer and the subsequent buyer, the sale shall be made by the buyer in its own name and not as agent for the vendor, however as between the vendor and buyer, the sale shall be made as bailee and agent for the vendor; and
 - (vii) Must keep and account for the proceeds of any subsequent sale separately from its other money and hold those proceeds, together with the benefits of any rights against subsequent buyers, on trust for the vendor.
- (g) In addition to clause 20, if payment is not made according to clause 15, but delivery has been made to, or possession obtained by, the buyer or its representative:
 - (i) The vendor or its agent may repossess and resell the stock and enter property owned or occupied by the buyer or its representative if necessary to do so; and
 - (ii) Interest may be charged at the rate usually charged by the agent for overdue accounts on any amounts which remain owing at any time.
- (h) The buyer may not make any claim against the vendor for actions by the vendor under clauses 20 or 21 and indemnifies the vendor against any loss, damage, costs, expenses, penalties, fines or claims suffered by the vendor or any person or entity arising from the vendor exercising its rights under clauses 20 or 21.
- (i) Wherever the auctioneer pays the vendor before being paid by the buyer, the auctioneer is the del credere agent of the vendor and the parties acknowledge that all rights of the vendor as reserved hereunder are fully subrogated to the auctioneer. Nothing in these terms and conditions shall render the auctioneer in any way whatsoever liable to the buyer as vendor nor entitle the buyer to set off against the auctioneer any right the buyer may have against the vendor or otherwise.
- (j) The auctioneer has been retained by the vendor as auctioneer for the purpose of selling the livestock comprised in the lots. The terms of engagement between the auctioneer and the vendor do not extend to the provision of advice by the auctioneer to the vendor in relation to the safety or otherwise of the sale ring, the saleyards and the surrounding environments.

CHAPTER THREE - WARRANTY FOR CORRECT PRESENTATION AND DECLARATION

- (a) This chapter applies only in the case of livestock and their companion animals sold at auction for slaughter when the buyer is the slaughterer and the livestock are transported direct from the sale yard to the meatworks at which they are slaughtered. This chapter does not apply if the buyer is a trader who subsequently resells the livestock to a slaughterer. A slaughterer is any person who pays the AMPC Processor levy.
- (b) The warranty of a vendor is that livestock and their companion animals offered for sale at auction:
 - (i) Pass AQIS and other regulatory authority requirements and inspections at the time of slaughter;
 - (ii) Are of merchantable quality;
 - (iii) Carry an NLIS device in accordance with State law;
 - (iv) In the case where a representation has been made in the pre-sale catalogue that the livestock have particular characteristics or are fit for a particular purpose or market, and such representations are based on information in the National Vendor Declaration, the livestock will have those characteristics or will be fit for the particular purpose or market; and
 - (v) All information in any National Vendor Declaration provided by the vendor is true, complete and correct in all material respects.
- (c) In the event of a breach by the vendor of the vendor's warranty and provided such breach is notified by the buyer to the vendor's agent by 5:00pm on the 7th day after the fall of the hammer then the buyer is not liable to pay the purchase price of such of the vendor's livestock to which the breach applies.
- (d) However if the breach by the vendor is such that the livestock are not rejected outright but are instead downgraded then the buyer will pay the value of the livestock at their next highest and best use.
- (e) In the case of a breach by the vendor of the vendor's warranty then the vendor will also be liable to the buyer for any further losses which the buyer might establish but the buyer will take all reasonable steps in co-operation with the agent and vendor to mitigate both the effect of the breach and the amount of any loss.

- (a) Where a sentinel animal of a lot tests positive for chemical residue, and provided such test is certified and notified as required by these vendor warranty terms, then:
 - (i) The buyer will be entitled to delay payment for the price of all livestock in that lot; or
 - (ii) The vendor has the option, at the vendor's cost, of collecting the companion animals and returning them to the vendor's property; or of having the stock slaughtered in which event the risk of further condemnations will be that of the vendor. Where product integrity is potentially jeopardised, the Processor has the right to refuse slaughter and send the livestock back to the consigning property at the vendor's cost.
- (b) The auctioneer is liable to the buyer in respect of any breach of the vendor's warranty arising out of:
 - (i) Any error, by the auctioneer, of transcription of information from the National Vendor Declaration completed by the vendor to the pre-sale catalogue or the buyers post-sale summary;
 - (ii) Any failure by the auctioneer to notify the buyer, prior to bidding, of any breach by the vendor of the warranty of the vendor if the buyer establishes that the agent knew of such breach prior to the sale; and
 - (iii) Any failure by the auctioneer to disclose prior to bidding, and in the pre-sale catalogue, that the vendor has failed to provide a National Vendor Declaration that is complete in all material aspects.

CHAPTER FOUR - OWNERS RISK FOR CONDITION OF CATTLE

- (a) This chapter applies only in the case of cattle and their companion animals sold at auction for slaughter when the buyer is the slaughterer and the cattle are transported direct from the sale yard to the meatworks at which they are slaughtered. This chapter does not apply if the buyer is a trader who subsequently resells cattle to a slaughterer. A slaughterer is any person who pays the AMPC Processor levy.
- (b) Owners risk reflects the producer's responsibility to provide slaughter cattle for sale that are fit for human consumption. Cattle are fit for human consumption if they are not condemned as unfit by AQIS. Owners risk applies if the condemnation is due to a condition in the animal which the buyer establishes, by the AQIS certificate, existed prior to the fall of the hammer.
- (c) A buyer with the benefit of owners risk protection is not liable to pay the purchase price of that animal to the vendor. The buyer remains nevertheless liable for all costs incurred after the fall of the hammer in transport, slaughter, testing and disposal of the animal.
- (d) Owners risk protection is available to the buyer of cattle to which this chapter applies if all of the following are satisfied:
 - (i) A certificate is issued by AQIS which states the relevant NLIS RFID tag number and PIC, the date of the certificate, the reason for condemnation and that the reason for condemnation existed prior to the fall of the hammer;
 - (ii) The certificate is received by the selling agent either in its original form or by fax by 5:00pm on the 7th day after the fall of the hammer; and
 - (iii) If the condemnation is due to chemical residue the certificate follows testing in an AQIS approved laboratory which establishes maximum residue limits in excess of the Australian limit.
- (e) Owners risk does not apply, and the buyer must pay for the cattle, if the reason for condemnation is any of the following:
 - (i) Bruising,
 - (ii) Fever,
 - (iii) Partial Condemnation, or
 - (iv) Emaciation.

CHAPTER FIVE - NOTICES REQUIRED BY STATE LEGISLATION

- NSW Legislation**
Property, Stock and Business Agents Act 2002 Warnings
Penalties for collusive practices. It is an offence against the Property, Stock and Business Agents Act 2002 for a person to do any of the following as a result of a collusive practice, or to induce or attempt to induce another person by a collusive practice to do any of the following:
 - (i) To abstain from bidding; or
 - (ii) To bid to a limited extent only; or
 - (iii) To do any other act that might prevent free and open competition.Severe penalties may be imposed on persons convicted of collusive practices. The auctioneer has the right to make one bid on behalf of the vendor if the auctioneer clearly and precisely announces that fact prior to the sale.
- Tasmanian Legislation**
The auctioneer must not appear to acknowledge a dummy bid. A buyer must not give, agree to give or offer a gift or other consideration to a person for abstaining from bidding and a person must not accept any gift or consideration for abstaining from bidding.
A person must not participate in collusive practices by way of making or receiving an unlawful promise to abstain from bidding, not to bid except to a limited extent or do any other thing which may prevent free and open competition.

- Western Australian Legislation**
Auction Sales Act 1973 s31 NOTICE
It is an offence to:
 - (i) Induce or attempt to induce another person to abstain from bidding by means of a promise, expressed or implied, that the other person will have the right to elect to take over as buyer or to lose or draw lots to establish who is to become the owner;
 - (ii) Abstain or agree to abstain from bidding as a result of such a promise;
 - (iii) Knowingly enter or permit to cause to be entered in the auctioneer's record any name other than that of the actual successful bidder;
 - (iv) Enter in the auctioneer's record the name of the buyer other than that of the actual successful bidder; or
 - (v) In the case of successful bidder supply wrong information as to the name of the buyer to the auctioneer or to any person, firm or corporation on whose behalf the sale is conducted.The vendor, or any person on behalf of the vendor, or the auctioneer have the right to make no more than three bids.
