# WOODBOURN ANGUS

Sale Day, Tuesday 15th April, 2014 at 10.45am

***“They have finally arrived!”***

This year there are 12 sons of the  
\$30 000 bull, Texas Dynamite E139  
in the April 15 Woodbourn Angus Sale.

At every weighing, inspecting and agent bull selecting,  
they have been a standout.

## WOODBOURN NEWS

The time has come for the succession planning to ‘kick in’.

It has been seven years or so, getting to this stage, where the property will be split and run separately, with lots of shared use of labour and infrastructure for all parties. Charles has always believed in letting the younger generation have full autonomy in their business.

This has led to the proposed reduction in the Woodbourn Angus female herd to a more manageable number on a reduced acreage. A percentage of top females will be retained with their offspring being offered privately in the ensuing spring joining periods.

The 2014 Annual Bull Sale will be the last of the annual Autumn Woodbourn Angus Bull Sales, with sale guarantees honoured as normal.

All the usual care, husbandry, testing etc will continue to guarantee a quality product is offered.
