HEALTH

We have embraced the Zoetis Star program to ensure the highest possible standards of animal health, see page 6.

SAFETY

Under normal conditions our bulls are placid and quiet, however care must be taken when inspecting bulls as crowd pressure can alter their behaviour. Please do not crowd the bulls and ask for assistance if you would like a closer inspection. Visitors enter the pens at their own risk. Children must not enter the pens at any time.

SALE AGENTS' REBATE:

A rebate of 3% and 4% will be paid to outside agents. Details in sale notes.

CONDITIONS OF SALE

These are as displayed by the agents on sale day.

SUPPLEMENTARY SHEETS

On the day the supplementary sheets will have weights and pen numbers.

GST

The cattle are sold GST exclusive and will be invoiced with GST included.

DELIVERY INSTRUCTIONS

Full freight details on Sale notes page 5. Please fill out the Buyers Instructions Slip at the back of the catalogue. Verbal instructions cannot be accepted.

INSURANCE

Insurance risk of stud animals sold at auction transfers to the purchaser at the fall of the hammer, including animals that remain on the vendor's property. Purchasers are therefore advised to insure their animals at the completion of the sale. Stud animals are not covered by commercial livestock insurance.

We recommend Roberts Insurance who will be in attendance on sale day.

HINTS TO COMMERCIAL BREEDERS

If joining females with single bulls, it is well advised to change bulls around the mobs. This will alleviate dry cows, if a bull is not working. Note the date the bulls are rotated.

Inspection from 9.30 am • Morning Tea and Lunch Provided • Sale starts at 11.30am

MISSION STATEMENT

Woodbourn strives to source and make available, superior genetics to maximise profitability for its clients in an atmosphere of trust, reliability and good humour.

SALE CATALOGUE DISCLAIMER

All reasonable care has been taken by the vendor to ensure that the information provided in this catalogue is correct at the time of publication. However, neither the vendor or the selling agents make no other representations about the accuracy, reliability or completeness of any information provided in this catalogue and do not assume any responsibility for the use or interpretation of the information included in this catalogue. You are encouraged to seek independent verification of any information contained in this catalogue before relying on such information.

WELCOME

I'd like to invite you to the Woodbourn thirty fifth sale. I am very excited to be able to offer you thirty three top quality bulls, a line of cows and calves out of the top ten percent of the herd, and a very even line up of feminine heifers.

The new sires represented in the catalogue are very exciting, as are the weaners coming up for next year. Our commitment to our breeding principles of fertility, structure, and performance is evident in this year's offering with both bulls and females being very sound, phenotypically appealing and high performing.

Of the 33 bulls on offer 88% are above breed average for two hundred day weight, 88% are above breed average for 400day weight, 98% are above breed average for 600 day weight and 67% are above average for Milk . Carcase performance is also very high, especially with 83% above average for EMA and a high number of bulls with positive fat and IMF. Our focus on carcase performance is also very good and above average. Even though I am not a great fan of Indexes, for those that are, our indexes are very impressive. VT has twenty five out of thirty three bulls (75%) above average, supermarket twenty eight out of thirty three (83%) and EU thirty (91%).

The relationship between commercial beef producers and seed stock producer is one that is built on trust and integrity. The decisions I make have a large impact on your herd and business, and therefore profitability. At Woodbourn, we are very mindful of our responsibility to the industry and we continue to do all we can to build that trust. This can be seen through our health, Johnes (MN3), and guarantees that we have in place. Sire verification (DNA) has been conducted on all bulls and have been found to be accurate.

We encourage you to contact us to see how we can help value add to your business.

The future certainly looks very bright for the beef industry, with a reduction in the female herd, and healthy forward contracts during this winter and spring. Word has it, there will be a beef shortage.

People ask how we present so many head in such great condition, especially in a dry year, when run so commercially. The answer is simple, by breeding easy doing, structurally sound cattle without extreme EBV's. No one wants cattle that take too long to turn off with the effect that can have on stocking rates..

I would like to thankyou for reading this welcome and we all, at Woodbourn, look forward to seeing you at the Open and Sale Days.

Please feel free to contact me for further information.

Charles

WOODBOURN SALE NOTES

GUARANTEE

All bulls are guaranteed. In the unlikely event of a bull becoming infertile or incapable of natural service, within two years of the sale date, the vendor will offer to supply a suitable replacement, as quickly as possible, if available, or credit the purchase price, less salvage value of the bull, to be used at the next sale, on one animal. This is on the provision that the problem was not caused by injury or disease contracted after delivery. The guarantee covers the purchase price of the bull, less salvage, without interest, costs or damages. Any claim must be accompanied by a relevant veterinary certificate.

Insurance is your responsibility.

REMEMBER: “If it’s our problem, we fix it”.

We strongly recommend that you observe your new bull when he is first introduced to the cows and if you have any concerns, please do not hesitate to contact us.

HEALTH

All bulls offered in this sale:

- Have passed a thorough veterinary examination, by Dr Paul Nilon, for structural soundness, especially feet and gait. External and internal reproductive organs were assessed and deemed normal. Testicular tone and scrotal circumference were assessed/measured and deemed normal. The lump you may see on a number of the bulls is a vaccination reaction. It is harmless and will disappear. If concerned about it, please ring Dr Paul Nilon - 03 63 981 666.
- Have been vaccinated 7-in-1 and inoculated against BVDV, Leptospirosis, and Vibriosis.
- Are part of the Zoetis Star Program guarantee to ensure the highest possible standards of health, see page 6.
- Have been ear notched and tested for BVDV. No PI's in the sale.

- Are part of the Johnes Disease Market Assurance Program and are monitored negative, MN3 status. MN3 Certificate No: TB6.99.02. All cattle eligible to enter WA.
- Genetic abnormalities. The status of CA is stated on each lot.
CAF = tested free
CAI = free by inheritance
CAU = untested
- Have been DNA profiled with sire verification recorded and found to be correct.

Females offered in the sale are:

- Vaccinated 7 in 1
- Calves at foot are vaccinated
- Have been inoculated against BVDV
- Have been ear notched and tested for BVDV. No PI's in the sale. (including calves)
- Are part of the Johnes Disease Market Assurance Program and are monitored negative, MN3 status. MN3 Certificate No: TB6.99.02
- Have been internally examined and found to be sound for breeding
- Guaranteed fertile and to breed under normal circumstances
- Have been pregnancy tested with results on each lot
- All adult females have a calving history shown on each lot.

INSPECTIONS

Sale cattle will be available for inspection from 1pm until 3pm on Sunday 4th May and from 9.30am on sale day. Inspection prior to the sale may be arranged with the vendor.

GROUP BREEDPLAN

Woodbourn Murray Greys are Group Breedplan evaluated on Murray Grey Group Breedplan. All cattle have been weighed at birth and the milestones dates that follow, have been scanned for carcase data and Group

WOODBOURN SALE NOTES

Breedplan evaluated for Birthweight, Milk, Growth and Carcase traits.

IDENTIFICATION

All cattle will have ear tags with Lot numbers and an NLIS tag.

The property ID number is MBLF0124.
National Vendor Declaration is at back of catalogue.

TRANSPORT

Woodbourn will arrange free delivery on bulls purchased at auction for \$3000 or more and on females purchased at auction for \$2500 or more.

- ✓ Victoria - Melbourne, Hamilton, Wodonga.
- ✓ NSW - Albury, Dubbo
- ✓ SA - Adelaide
- ✓ Local area, if requested. Cattle sold within Tasmanian mainland will be delivered free of charge.
- ✓ Tas - sea freight only to King Island and Flinders Island
- ✓ WA - will pay \$500 towards freight of each bull purchased at auction for \$3000 or more for consignment to Western Australia. \$250 for females purchased at auction for more than \$2500.
- ✓ Woodbourn is also prepared to offer some additional freight assistance to buyers in the Eastern states who purchase more than five animals.

REBATE

A rebate of 4% will be paid to outside agents accompanying buyers on sale day, provided that they have nominated the buyer in writing 24 hours prior to the sale and settle on their behalf within 7 days of the sale. Unless otherwise agreed with the vendor, a rebate of 3% will be paid to outside agents who do not attend the sale, but nominate a buyer at least 24 hours prior to the sale and settle on the buyers behalf within 7 days. In all cases the agent must be nominated on the Buyers Registration Form.

TRANSFERS

All animals sold will be transferred on request.

REFERENCE SIRES

Details of reference sires at back of catalogue.

AGENTS

Full list of agents at back of catalogue

Woodbourn aims to maximise the reproductive integrity and health of their stock by adopting the STAR program – this is **Steps Taken Against Reproductive** disease.

Each STAR animal in this catalogue has been-

1. tested to show that they are not Bovine Viral Diarrhoea Virus Persistently Infected animals
2. vaccinated against BVDV to ensure they are immune to the effects of this infection
3. vaccinated against Leptospirosis, a potential reproductive and OH&S risk for cattle handlers
4. vaccinated against vibriosis, a sexually transmitted cattle disease
5. given two vaccinations to ensure they have immunity established prior to leaving these premises.

You can be confident that every step has been taken by Woodbourn to ensure that these animals presented for sale will not introduce preventable reproductive diseases into your herd.

Zoetis Tasmanian contact: Mr Phil Jarvie 0418 557 211

Success with Woodbourn Genetics

Andrew Morris of King Island did very well at the King Island Show carcase competition with animals by Woodbourn sires.

A steer from this group won his class on the hook and went on to be Grand Champion carcase of the King Island Show against all comers.

One of Andrew's heifers, also by a Woodbourn sire, came second on the hoof. Congratulations Andrew and Helen.

Testimonial from a happy NSW breeder

"Hi Charles

Both these two are by your bull Iclander.

Heifer was junior and grand champion female Tenterfield Show and winner of the Reg Chapman memorial trophy. Bull was junior, grand champion and Bill Barratt memorial trophy winner for supreme Murray Grey Exhibit. The bull went on to be interbreed champion male of the show.

This bull Sixpence Park Hunter will be at Sydney and then Wodonga.

He would make the best steer bull anywhere. His temperament is such that a boy who has only led twice before, led the grand parade with him.

If any body wanting reassurance of Woodbourn cattle being low birth weight and having the best temperament please send them our way. We were very very happy with your honesty and advice in purchasing this bull.

We will have a breeders group and sires progeny by Iclander at Sydney show this year.

Please feel free to call on 0419 616 584.

Regards Linda Martin"

 Dam: **BYRONFIELD E6 (PB) (AI)**
 BYRONFIELD (PB)

NOTES: What a great bull to start the sale with! Nearly 6 frame, low birth, extremely high milk and 600day figures. This outstanding bull has great length, depth and muscle throughout. Great butt development, smoothness, neat pizzle and a very strong Murray Grey head. Certainly a bull not to be missed.

LOT 2 WOODBOURN HAHN H8 (PB)

Born: 02/03/2012 Colour: Grey Tattoo: H8

Genetic Conditions: CAI AMU NHU

Sire: **MELALEUCA ARTILLARY A16 (PB)**
 MONTEREY EXCEPTIONAL (PB)
 MELALEUCA ESMERELDA U65 (PB) (AI)
 JYNDARRA WARRIOR W3 (PB) (AI)
 Dam: **WOODBOURN AGNES A44 (PB)**
 WOODBOURN AGNES T16 (PB)

NOTES: One of the last Melaleuca Artillery sons to be offered (old age got the better of him). This 6.2 frame score bull is as thick as a brick throughout. Great length, smooth shoulders, length of neck combined with outstanding growth and milk figures make this bull ideal for steer production. Very high EMA and overall masculinity gives this bull heaps of strength.

 Dam: **LINDSAY BESS B100 (PB) (AI)**
 LINDSAY BESS Z29 (PB)

NOTES: As usual, at lot 3, we think this is the best bull in the draft. This extremely smooth, long, thick bull with his tight sheath is outstanding. Great head and neck extension with thickness from one end to the other. At 6.6 frame, low birth, high growth, positive fats and high EMA, makes this bull truly outstanding. As well as covering a lot of ground when stationary, he is a very free moving sire.

NOTES: A bull with tremendous length and smoothness with very good carcase on strong bone. He has a very tight sheath, strong head. He displays a great deal of softness and easy doing. This bull well deserves his place at number 5 in the catalogue. A large framed bull by Kelso Cracker that we have had great success with.

WOODBURN MISS PEPPER M117 (PB)

Genetic Conditions: CAI AMU NHU

NOTES: We are certainly starting to breed curve bending cattle at Woodbourn. This frame 6, long, smooth, masculine but easy doing bull is, in my opinion, quite outstanding. +2.5 birth weight to +53 for 600 day, above average milk is very very good. Add that to his 2.1 EMA and positive fats - this bull is exceptional. Note his very good feet.

WOODBOURN JEANETTE P37 (PB)

NOTES: Very much one of the babies of the team, this very smooth young bull has plenty of length and neck as well as smooth shoulders. His figures indicate great growth and milk. One of the tops of the sale team for EMA and positive fats. At frame 6, we consider him to be well worth a second look for heifer joining.

WOODBOURN ROSIE Z24 (PB)

NOTES: By the very successful Woodbourn Warrior B48, that has been used extensively throughout the country, but especially SA and WA. Out of a Warrook Hassett cow, a low birth, very high milk line, with fantastic indexes. A large framed, long necked, feminine female. Joined to Woodbourn Galaxy G107, 29/10/13 to 12/01/14. Grey heifer calf at foot, Woodbourn Rosie J143, born: 24/10/13, tattoo: 4WJ143, sire Wiltshire First Class F2. An extremely well grown feminine calf with length and thickness. Note her growth for age. Calving history - 3 calves. PTIC

Incitec Pivot Fertilisers proudly supporting the 2013 Woodbourn Bull Sales

A black and white photograph of a tall, traditional windmill with many blades, set against a cloudy sky. The windmill is the central visual element of the advertisement.

Windmills were designed to accomplish one goal.

To pump water by harnessing the wind's natural energy. This provided a source of fresh water from dams, wells, bores and even Australia's Great Artesian Basin. 135 years on, it still remains an efficient and reliable pumping machine. And for over 100 years, we've put our energy into accomplishing one goal too. We're an agribusiness bank. That means we provide loans for property purchase, refinancing and working capital, both on and off farm, for producers like you. This exclusive focus enables us to help your business meet your ambitions and secure your long-term future.

Rabobank. One focus.

Contact your local branch on
1300 30 30 33
or visit www.rabobank.com.au

The Rabobank logo, which includes a stylized figure of a person walking on a globe, with the word "Rabobank" written below it.

23 'H' Woodbourn Heifers

Again, a very good line-up of heifers. Excellent figures go with breed type, length, softness, muscle and scale. This line of heifers is so even, to make comments on each lot would prove to be repetitive.

Like all of our sale animals (calves included) they have been tested for BVDV and there are no PI's in the sale.

All have been run with a bull and the pregnancy test results are in the catalogue under each lot.

Some are empty, due to the difficult winter, their body weights were down, and they were not joined until later for a very limited time. (We will not join heifers that do not make 295kgs)

All have been vet examined and found to be sound for breeding. All heifer joining sires are silver in colour.

Joining sire: Ayr Park Hipster H64

An extremely good young bull bought from Ayr Park in 2013 specifically to join to these young heifers. With the way he is growing out we would be confident that he will join the senior sire battery next year.

Support the processor that supports Tasmania

Greenham is committed to growing the Tasmanian beef industry. Our Cape Grim and Tasmania Natural brands carry the reputation of Tasmanian grass fed beef across Australia and into foreign markets.

Leading chefs sing its praises. Google 'Neil Perry how to cook a steak' to see our promotional efforts at work.

We process in Tasmania, employ Tasmanians and vigorously promote Tasmanian beef.

So, why sell your cattle to mainland agents and risk undermining a great future for our industry?

Sell your cattle to the six generation family owned Australian company committed to building a high value, sustainable Tasmanian beef industry.

Greenham Tasmania Pty Ltd

For further details and prices ring:

Graeme Pretty 0418 505 347

No fees and no worries at Greenham.

THE JOKE

And then the fight started...

My wife sat down on the couch next to me as I was flipping channels.

She asked, 'What's on TV?'

I said, 'Dust.'

And then the fight started...

My wife was hinting about what she wanted for our upcoming Anniversary.

She said, 'I want something shiny that goes from 0 to 150 in about 3 seconds.'

I bought her a scale.

And then the fight started...

I took my wife to a restaurant.

The waiter, for some reason, took my order first.

"I'll have the strip steak, medium rare, please."

He said, "Aren't you worried about the mad cow?"

"Nah, she can order for herself."

And then the fight started...

My wife asked me if a certain dress made her butt look big.

I told her not as much as the dress that she had worn yesterday.

And then the fight started...

I asked my wife, "Where do you want to go for our anniversary?"

It warmed my heart to see her face melt in sweet appreciation.

"Somewhere I haven't been in a long time!" she said.

So I suggested, "How about the kitchen?"

And that's when the fight started...

My wife and I are watching 'Who Wants To Be A Millionaire' while we were in bed. I turned to her and said, "Do you want to have sex?"

"No," she answered. I then said, "Is that your final answer?"

She didn't even look at me this time, simply saying "Yes."

So I said, "Then I'd like to phone a friend."

And that's when the fight started.

The high yielding Italian ryegrass for strong stock performance.

Kano delivers proven high dry matter production

- High disease resistance with rapid regrowth after grazing.
- Suitable for most soil types, fertility ranges and stock types.
- If you like Crusader – you will Love Kano and SAVE hundreds of dollars.
- Recommended where quality finishing is required as a winter greenfeed and then spring grazing or where silage is required.
- Used widely to stitch into pastures that have been winter pugged succumbed to summer drought or affected by insect damage.

NATIONAL VENDOR DECLARATION (CATTLE) AND WAYBILL C0411 13207632

This form cannot be used where eligibility for the EU market is required.

Part A To be completed by the owner or person who is responsible for the husbandry of the cattle.

Owner of cattle **WALABADAH P/L**

Property/place where the journey commenced **391 SAUNDRIAGE Rd, CRESSY TAS**

Property Identification Code (PIC) of this property **MBLF0124**

Description of cattle

Number	Description (BREED, SEX, E.G. HERFORD CROSS STEERS)	Brands or Earmarks (if present or required)
33	MURRAY GRAY BULLS.	
7	ADULT FEMALES.	
5	CALVES.	
24		
69	Total	

Consigned to **ROBERTS LTD, WESTERN JUNCTION TAS.**

Destination (if different) of cattle

NLIS devices used on these cattle Number of ear tags **69** Number of rumen devices

Details of other statutory documents relating to this movement e.g. animal health certificate

1. Have any of the cattle in this consignment ever in their lives been treated with a hormonal growth promotant (HGP)? (Use a second document for mixed consignments.)
Yes ☐ No ☒

2. Have the cattle in this consignment ever in their lives been fed feed containing animal fats?
Yes ☐ No ☒ (See Explanatory Notes)

3. Has the owner stated above owned these cattle since their birth?
Yes ☒ No ☐ If No, how long ago were the cattle obtained or purchased?
(If purchased at different times, tick the box corresponding to the time of the most recent purchase.)
A. Less than 2 months ☐ B. 2-6 months ☐ C. 6-12 months ☐ D. more than 12 months ☐

4. In the past 60 days, have any of these cattle been fed by-product stockfeeds?
Yes ☐ No ☒ If Yes, attach a list of the by-product stockfeeds, date when last fed and a copy of an analyst's report if available.

5. In the past 6 months have any of these animals been on a property listed on the ERP database or placed under any restrictions because of chemical residues?
Yes ☐ No ☒ If Yes, give details:

6. Are any of the cattle in this consignment still within a Withholding Period (WHP) or Export Slaughter Interval (ESI) following treatment with any veterinary drug or chemical?
Yes ☐ No ☒ If Yes, give details: (Record additional details in question 9)

7. In the past 60 days, have any of the cattle in this consignment consumed any material that was still within a withholding period when harvested, collected or first grazed?
Yes ☐ No ☒ If Yes, give details:

8. In the past 42 days, were any of these cattle:
a) grazed in a spray risk area; or
b) fed fodders cut from a spray drift risk area? (See Explanatory Notes for definition of spray drift risk area.)
Yes ☐ No ☒ If Yes Date sprayed: / /20

9. Additional information: see requirements in Explanatory Notes for completing this document.

If you have any queries, please telephone 02 6771 5151.

*Charles and Janet Wallace
thank you for your support.*

LIVESTOCK AUCTION TERMS AND CONDITIONS OF SALE

CHAPTER ONE - PRELIMINARY

1. (a) A vendor is bound by these terms and conditions by offering livestock for sale by auction.
- (b) An agent (which includes an auctioneer) is bound by these terms and conditions by conducting an auction sale.
- (c) A buyer is bound by these terms and conditions by bidding at auction.
2. In these terms the expression auctioneer, agent, buyer and vendor respectively includes the servants, contractors, agents of each of them. The auctioneer, agent, buyer and vendor shall be wholly responsible for the acts and omissions of their respective servants, contractors and agents. The term "auctioneer" includes, so far as the law and context permits, the term "agent".
- (b) when used in these terms the expressions "companion animals" means all animals originating from the same property on a particular day. Where lots are split and sent to multiple establishments, then all of these animals shall be regarded as companions.
3. The following applies in interpreting these terms and conditions:
 - (a) The following words have the following meanings:
 - Fees means all levies, charges, fees, costs and other expenses incurred relating to these terms and conditions and the sale and purchase of livestock, including, without limitation, transaction levies, yard and weigh dues, cartage, advertising and rebates, and whether paid for or incurred, by the agent;
 - Livestock means animals auctioned pursuant to these terms and conditions;
 - Price means the amount at which the lot has been sold to the buyer referred to in clause 7 of these terms and conditions;
 - plus any Fees and other expenses incurred in relation to the purchase of livestock that are payable by the buyer; and
 - plus any GST added in accordance with clause 12.
 - (b) These terms and conditions are subject to legislation or regulation in the State in which the auction is conducted and in the event of any conflict then the legislation or regulation will prevail. The provisions of these terms and conditions are in addition to, and do not derogate from, the duties and obligations of vendors, agents and buyers set out in legislation and regulation in the State in which the auction is conducted.

CHAPTER TWO - STANDARD TERMS OF SALE

4. Subject to any reserve price, and to the right, prior to the fall of the hammer, of the vendor to withdraw any lot without declaring the reserve, the highest bidder shall be the buyer.
5. The auctioneer has the right to bid on behalf of the vendor provided that right is notified prior to the commencement of the sale.
6. A bid cannot be made or accepted after the fall of the hammer unless, in accordance with clause 8, the auctioneer decides to put the lot up again.
7. The last price called for by the auctioneer at the fall of the hammer shall be the amount at which the lot has been sold.
8. In the event of a disputed bid, the auctioneer is the sole arbitrator of the successful bidder or the auctioneer may decide to put the lot up again. The auctioneer's decision is final.
9. The auctioneer may refuse to accept any bid which, in the auctioneer's opinion, is not in the best interest of the vendor and need not give reasons for doing so.
10. A bidder shall be deemed to be a principal unless, prior to bidding, the bidder has given to the auctioneer a copy of written authority to bid for or on behalf of another person.
11. The successful bidder at a livestock auction sale must give to the auctioneer at the fall of the hammer:
 - (a) the purchaser's name, or
 - (b) the bid card number which identifies the purchaser; or
 - (c) the name of the person on whose behalf the successful bid was made; and
 - (d) the Property Identification Code (known as the "PIC") of destination.
12. The auction shall be conducted on the basis that the bid price shall be exclusive of Goods and Services Tax (GST). GST shall be added after the fall of the hammer for those sales subject to GST.
13. As soon as practicable after the fall of the hammer, the buyer shall if requested by the agent, sign the agreement to sale.
14. If a buyer does not comply with any of these terms and conditions, which includes the requirements of State law, any livestock knocked down to that buyer may be re-sold by public auction or private contract to whatever lots and manner the auctioneer decides. The re-sale may be with or without notice and shall be at the buyer's risk. The buyer shall be liable for all loss and expense arising out of a re-sale and is not entitled to any resulting profit.
15. The buyer of livestock must pay the agent the full amount of the purchase price in immediate funds on receipt of a tax invoice. Payment is required prior to delivery unless the agent has agreed in writing to a written agreement between the buyer and the auctioneer that was made before the fall of the hammer. If, before delivery, payment has not been made, then clauses 20 to 23 apply.
16. No person may bid unless, prior to the commencement of the sale, that person has made arrangements with the auctioneer to pay for the purchase price of livestock purchased. If lots in breach of this condition are inadvertently accepted, delivery shall not be given until the purchase money is paid and any law, rule or practice to the contrary is accordingly negatived as far as possible.
17. (a) Cattle sold on a fiveweight basis that are weighed pre-sale are at the risk and expense of the buyer upon the fall of the hammer.
- (b) Cattle sold on a fiveweight basis that are weighed post-sale are at the risk and expense of the buyer immediately after weighing.
- (c) All livestock other than cattle sold on a fiveweight basis are at the risk and expense of the buyer upon the fall of the hammer.
18. (a) Subject to this clause the sale is complete on the fall of the hammer.
- (b) The time for rejection is the time commencing at the fall of the hammer and ending at the first of:
 - (i) delivery is taken by a representative of the buyer;
 - (ii) departure of the animal from the purchaser's delivery pen; or
 - (iii) one hour after the last animal is:
 - a. in the case of pre-sale weighing, sold; or
 - b. in the case of post-sale weighing, weighed.
- (c) During the time for rejection the buyer may reject any animal which is lame, blind or diseased where that condition existed prior to the fall of the hammer but could not be reasonably observed when the animal was in the selling pen.
- (d) If the purchaser rejects an animal during the time for rejection then the sale of that animal is cancelled and the animal is returned to the vendor or sold on such terms as any buyer and the agent may agree, after the agent has disclosed the reason for rejection to that buyer.
- (e) This sub-clause applies only to cattle which are sold in Queensland at auction for slaughter. The agent has responsibility for the prevention of loss or escape (but not death, sickness or injury) of those cattle from the time of the fall of the hammer, through delivery to and from the scales, to the buyer's delivery pen and on to the buyer's nominated transport. This responsibility ends at the earlier of those cattle boarding the buyer's nominated transport or sunset on the day after the sale. This sub-clause does not apply if the agent makes an announcement to that effect prior to the sale.
19. (a) Subject to the right of rejection in Clause 18, all conditions and warranties expressed or implied by law are hereby excluded from the sale to the extent that the law allows. All lots are open for inspection prior to the commencement of the sale and are sold with all faults, if any. No compensation shall be given for any faults, imperfections, errors of description, number in any lot sold or otherwise.
- (b) Any claim or objection arising out of an error or misdescription in the provision of relevant information in terms of legislation or regulation concerning the National Livestock Identification Scheme (NLIS) must be made by 5:00pm on the seventh day after the fall of the hammer. No

objection, regulation or claim against the vendor or agent in respect of such error or misdescription can be made after that time.

- (c) Any statements made by the vendor or the auctioneer whether in writing or orally to the effect that any female has been pregnancy tested or scanned positive shall mean and require only that a certificate in writing shall be supplied by the buyer signed by a qualified veterinary surgeon or certified scanner certifying that the said female has been tested or scanned on the date specified in the certificate and that in the opinion of the surgeon or scanner was pregnant on that date.
- (d) For slaughter cattle, the agent undertakes to make every reasonable effort to ensure that any NLIS cattle device number is transferred from the sateyard PIC to the purchaser's PIC on the NLIS database no later than midnight on the day of the sale.
- (e) For other slaughter livestock the agent undertakes to make every reasonable effort to ensure that the NLIS information is transferred from the sateyard PIC to the purchaser's PIC on the NLIS database no later than midnight on the day of the sale.
- (f) Where livestock have a food safety or market eligibility status derived from the National Vendors Declaration (NVD) or the NLISER database, the agent will inform the buyers by pre-sale catalogue and/or announcement the status prior to the offering of those lots.
20. If delivery is made, to, or possession obtained by, the buyer or its representative before full payment of the Price, then until full payment is received, the buyer:
 - (a) does not acquire title to the livestock;
 - (b) holds the livestock as bailee only for the vendor;
 - (c) must act in a fiduciary capacity in its relationship with the vendor;
 - (d) must store the stock separately or so that they are readily distinguishable from other livestock owned by the buyer;
 - (e) is responsible for the safety and well being of the livestock;
 - (f) may make a bona fide sale for market value of any or all of the livestock. As between the buyer and the subsequent buyer, the sale shall be made by the buyer in its own name and not as agent for the vendor, however as between the vendor and buyer, the sale shall be made as bailee and agent for the vendor; and
 - (g) must keep and account for the proceeds of any subsequent sale separately from its other monies and those proceeds, together with the benefits of any rights against subsequent buyers, on trust for the vendor.
21. In addition to clause 20, if payment is not made according to clause 15, but delivery has been made, to, or possession obtained by, the buyer or its representative:
 - (a) The vendor or its agent may repossess and resell the livestock and the agent has the right to refuse slaughter and send the livestock back to the consigning property at the vendor's cost.
 - (b) Interest may be charged at the rate usually charged by the agent for overdue accounts on any amounts which remain owing to the vendor.
22. The buyer may not make any claim against the vendor for actions by the vendor or its agent under clauses 20 or 21 and indemnifies the vendor and its agent against any loss, damage, costs, expenses, penalties, fines or claims suffered by the vendor or any person or entity arising from the vendor exercising its rights under clauses 20 or 21.
- 23.1. Clause 23 applies to the vendor's obligations to the buyer before being paid by the buyer, which the agent is not bound to do. The agent is then the bid creditor agent.
- 23.2. The vendor hereby gives notice to the buyer of the assignments referred to in clause 23.3.
- 23.3. Where these clause applies, in addition to any rights of the agent that arise by operation of the law, the parties agree that, subject to clause 23.6 the agent is delegated all the rights of the vendor under these terms and conditions against the buyer.
- 23.4. Title to the livestock does not pass to the agent or a nominee of the agent unless the agent, by written notice to the vendor, notifies the vendor that it is to be transferred to the agent or a nominee of the agent.
- 23.5. The vendor acknowledges that the agent may take enforcement, repossession or other action to recover any livestock for which the buyer has not paid in full, the Price of such livestock, owing by the buyer under these terms and conditions:
 - (a) when this clause does not apply, as agent of the vendor (including by reselling the livestock); and
 - (b) when this clause applies, on the agent's own behalf (exercising the rights of the vendor by sub-assignment).
- 23.6. The agent may at any time, assign, transfer, securitise or otherwise dispose of all or any of its rights under these terms and conditions and any debts created pursuant to it (including, without limitation, the rights assigned to it under clause 23.5) to any person or entity.
- 23.7. The vendor hereby irrevocably appoints the agent as the vendor's attorney to:
 - (a) do at any time and in any manner as the agent thinks fit all acts necessary or desirable to perfect or improve the rights and interests afforded or intended to be afforded, to the agent under these terms and conditions; and
 - (b) appoint one or more sub-attorneys to do anything that the agent may do as the vendor's attorney.
- 23.8. These terms and conditions do not render the agent liable to the buyer as vendor nor entitle the buyer to set off against the agent any right the buyer may have against the vendor otherwise.
- 23.9. The buyer acknowledges that the provisions of this clause 23 are intended solely for the benefit of the agent (and its assigns) and the vendor. The liabilities and obligations of the buyer will not be in any way affected:
 - (a) by this clause 23, other than as it expressly provides; or
 - (b) by the failure of the agent or the vendor or either of them to comply with the terms of this clause 23.
- 23.10. The buyer must pay all amounts payable to the vendor or the agent under these terms and conditions without any deduction, withholding, set off or counterclaim whatsoever, whether the benefit of a deduction, withholding, set off or counterclaim is alleged to exist in favour of the buyer as against the vendor or the agent in any capacity whatsoever or any other person including any assignor of the vendor's or the buyer's interests under these terms and conditions.
24. (a) The agent agrees that he is liable to pay to the vendor the Price, less commission as is agreed between the agent and the vendor, in the absence of any agreement such amount as is reasonable, and less the Fees that are payable by the vendor that were incurred by the agent on behalf of the vendor in relation to the sale of the livestock.
- (b) In the event that the buyer pays the Price or part of it direct to the vendor then the agent has no liability to the vendor for the amount of such payment. Further, if the agent pays the vendor any amount which the buyer also pays direct to the vendor in respect of the same livestock, then the vendor must repay the agent that amount and the agent may debit that amount to an account held in the name of the vendor by the agent.
- (c) Regardless of whether or not a sale has occurred the agent may, but is not under obligation to do so, instead of deducting payment owed to it by the vendor, debit the amount of the commission and fees to an account held in the name of the vendor by the agent.
25. (a) The auctioneer has been retained by the vendor as auctioneer for the purpose of selling the livestock comprised in the lots. The terms of engagement between the auctioneer and the vendor do not extend to the provision of advice by the auctioneer to the vendor in relation to the safety or otherwise of the sale ring, the sateyards and the surrounding environments.
- (b) The vendor, the agent and the buyer agree to comply with their several duties under the Australian Animal Welfare Standards and Guidelines for the Land Transport of Livestock and further to consign, manage, receive, transport and handle livestock in accordance with any other or additional requirements of animal welfare legislation specific to the jurisdiction in which livestock are consigned, managed, received, transported and handled in the course of the auction process.

CHAPTER THREE - VENDOR WARRANTY FOR CORRECT PRESENTATION AND DECLARATION

26. This chapter applies only in the case of livestock and their companion animals for sale for slaughter where the buyer is the slaughterer and the livestock are transported direct from the sale yard to the meatworks at which they are slaughtered. This chapter does not apply if the buyer is a trader who subsequently resells the livestock to a slaughterer. A slaughterer is any person who pays the AMPIC Processor levy.
27. The warranty of a vendor is that livestock and their companion animals offered for sale at auction:
 - (a) pass DAFF and other regulatory authority requirements and inspections at the time of slaughter; (DAFF refers to the Federal Government Department of Agriculture, Fisheries and Forestry)
 - (b) are of merchantable quality;
 - (c) carry an NLIS device in accordance with State law;
 - (d) in the case where a representation has been made in the pre-sale catalogue that the livestock have particular characteristics or are fit for a particular purpose or market, and such representations are based on information in the NVD, the livestock will have those characteristics or fit for that purpose or market; and
 - (e) all information in any NVD provided by the vendor is true, complete and correct in all material respects.
28. In the event of a breach by the vendor of the vendor's warranty and provided such breach is notified by the buyer to the agent by 5:00pm on the 7th day after the fall of the hammer then the buyer is not liable to pay the portion of the Price of such of the vendor's livestock to which the breach applies.
29. However if the breach by the vendor is such that the livestock are not rejected outright but are instead downgraded then the buyer will pay the value of the livestock at their next highest and best use.
30. Unless a breach by the vendor of the vendor's warranty then the vendor will also be liable to the buyer for any further losses which the buyer might establish but the buyer will take all reasonable steps in co-operation with the agent and vendor to mitigate both the effect of the breach and the amount of any loss.
31. Where a sentinel animal of a lot tests positive for chemical residue, or foreign material contamination and provided such test is certified and notified as required by these vendor warranty terms:
 - (a) the buyer will be entitled to delay payment for the price of all livestock sold in the lot only;
 - (b) the vendor has the option, at the vendor's cost, of collecting the companion animals, if allowed by law; or of having the livestock slaughtered in which event the risk of further condemnations will be that of the vendor. Where product integrity is potentially jeopardised, the vendor has the right to refuse slaughter and send the livestock back to the consigning property at the vendor's cost.
32. The agent is liable to the buyer in respect of any breach of the vendor's warranty arising out of:
 - (a) any error, by the auctioneer, of transcription of information from the NVD completed by the vendor to the pre-sale catalogue or the buyers post-sale summary;
 - (b) the failure by the auctioneer to notify the buyer, prior to bidding, of any breach by the vendor of the warranty of the vendor if the buyer establishes that agent was aware of such breach prior to the sale; and
 - (c) any failure by the auctioneer to announce prior to bidding, or disclose in the pre-sale catalogue, that the vendor has failed to provide a NVD that is complete in all material aspects.

CHAPTER FOUR - OWNERS RISK FOR CONDITION OF CATTLE

33. This chapter applies only in the case of cattle and their companion animals sold at auction for slaughter where the buyer is the slaughterer and the cattle are transported direct from the sale yard to the meatworks at which they are slaughtered. This chapter does not apply if the buyer is a trader who subsequently resells cattle to a slaughterer. A slaughterer is any person who pays the AMPIC Processor levy.
34. Owners risk reflects the producer's responsibility to provide slaughter cattle for sale that are fit for human consumption. Cattle are fit for human consumption if they are not condemned as unfit by DAFF. Owners risk applies if the condemnation is due to a condition in the animal which the buyer establishes, by the DAFF certificate, existed prior to the fall of the hammer.
35. A buyer with the benefit of owners risk protection is not liable to pay the Price of cattle animals to the agent for slaughter nevertheless liable for all costs incurred after the fall of the hammer in transport, slaughter, testing and disposal of the lot only.
36. Owners risk protection is available to the buyer of cattle to which this chapter applies if all of the following are satisfied:
 - (a) a certificate is issued by DAFF which states the relevant NLIS RFID tag number and PIC, the date of the certificate, the reason for the condemnation and the date of the certificate; and
 - (b) the certificate is received by the selling agent either in its original form or by fax by 5:00pm on the 7th day after the fall of the hammer; and
 - (c) if the condemnation is due to chemical residue the certificate follows testing in a DAFF approved laboratory which establishes maximum residue limits in excess of the Australian limit.
37. Owners risk does not apply, and the buyer must pay for the cattle, if the reason for condemnation is any of the following:
 - (a) bruising,
 - (b) fever,
 - (c) partial condemnation, or
 - (d) emaciation.

CHAPTER FIVE - NOTICES REQUIRED BY STATE LEGISLATION

- NSW Legislation**
Property, Stock and Business Agents Act 2002 Warnings
- Penalties for collusive practices. It is an offence against the Property, Stock and Business Agents Act 2002 for a person to do any of the following as a result of a collusive practice, or to induce or attempt to induce another person by a collusive practice to do any of the following:
- (i) to abstain from bidding; or
 - (ii) to bid to a limited extent only; or
 - (iii) to do any other act that might prevent free and open competition.
- Severe penalties may be imposed on persons convicted of collusive practices. The auctioneer has the right to make one bid on behalf of the vendor if the auctioneer clearly and precisely announces that fact prior to the sale.

Tasmanian Legislation

An auctioneer conducting a public auction must not appear to acknowledge the making of a bid if no bid was made. A person must not participate in collusive practices by way of making or receiving an unlawful promise to abstain from bidding, not to bid except to a limited extent or to do any other thing which may prevent free and open competition.

Western Australian Legislation

- Auction Sales Act 1973 s31 NOTICE. It is an offence to:
- (i) induce or attempt to induce another person to abstain from bidding by means of a promise, expressed or implied, that the other person will have the right to elect to take over as buyer or to lose or draw lots to establish who is to become the owner;
 - (ii) abstain or agree to abstain from bidding as a result of such a promise;
 - (iii) knowingly enter or permit or cause to be entered in the auctioneer's record any name other than that of the actual successful bidder;
 - (iv) enter in the auctioneer's record the name of the buyer other than that of the actual successful bidder; or
 - (v) in the case of successful bidder supply wrong information as to the name of the buyer to the auctioneer or to any person, firm or corporation on whose behalf the sale is conducted.

The vendor, or any person on behalf of the vendor, or the auctioneer have the right to make no more than three bids.
