**NOTES:** Melaleuca Ghandi keeps turning out these excellent young bulls. Out of a very old cow, this young bull is quite outstanding, with length and depth and visual muscle. His 3.9 birth weight, good growth figures and EMA of 2.7, put this bull in the top bracket. As with nearly all the bulls in this catalogue, he has a very tight sheath and is very free moving on sound legs.

NOTES: One of the youngest in the sale this year. With his overall smoothness through the front end and more than adequate development in the hindquarter, I have no hesitation in suggesting this bull for use over heifers. With plus 5 for milk he would be very desirable for a replacement herd, added to his +2.1 EMA and high growth. A very interesting package.
